PROFESSIONAL EXPERIENCE

CarTrade Tech Ltd.

November 2024 - Present

Associate Software Development Engineer

Navi Mumbai, India

- Component Architecture:** Pioneered component-level versioning in the [Oxygen](#) design system repository, enabling independent updates for 80+ components and reducing integration overhead by 40% across 5+ consuming teams.
- Campaign Development:** Delivered 40+ high-priority Go-Live Skin Ads Campaign tasks featuring advanced CSS animations and interactive features using vanilla JavaScript with template injection, ensuring cross-browser compatibility through BrowserStack testing under tight deadlines.
- Automation Engineering:** Architected modular template automation system, eliminating duplicate JavaScript by 80-90% (1-2.5 MB savings) and reducing template creation time from 2 hours to 15 minutes, boosting developer productivity across 3 teams.
- Infrastructure Enhancement:** Developed an internal operations panel with direct S3 bucket integration for icon/SVG uploads, implementing role-based access control (RBAC) for 50+ team members across different departments, reducing asset deployment time from 2 days to real-time.
- Design-to-Code Automation:** Built a Model Context Protocol (MCP) server that automatically processes Zeplin design links and generates complete React components from [Oxygen](#) Design System library with accurate props, styling, and functionality, reducing design-to-code time by 85% and eliminating manual component creation for [CarWale](#) and [BikeWale](#).

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend Frameworks: React.js, Redux Toolkit, Next.js, Tailwind CSS

Backend Technologies: Node.js, Express.js, RESTful APIs, MCP (Model Context Protocol)

Cloud & DevOps Tools: AWS S3, Docker, Jenkins, Git/GitHub, Webpack, npm, Vercel

Database Systems: MongoDB, MySQL, Firebase

Development Methodologies: Agile/Scrum, Test-Driven Development, Code Review, CI/CD, Responsive Design

PROJECTS

GPT-Flix - Netflix Clone with AI Recommendations

March 2024 - April 2024

- Full-Stack Architecture:** Engineered Netflix-like streaming application using React.js, Redux, and Firebase, implementing secure user authentication for 500+ registered users with 99.9% uptime.
- AI-Powered Recommendations:** Integrated GPT-powered chatbot for personalized movie suggestions, increasing user engagement by 40% and session duration by 60%.
- API Integration:** Implemented TMDB API integration with custom React hooks for efficient data handling, displaying 1000+ movies across multiple categories with optimized loading performance.
- State Management:** Utilized Redux Toolkit for centralized state management, ensuring seamless data flow and improving application performance by 25%.

Cred-Wallet - Personal Card Management System

May 2023 - June 2023

- MERN Stack Development:** Developed comprehensive card wallet application using MongoDB, Express.js, React.js, and Node.js, enabling users to securely store and manage 50+ card types.
- Security Implementation:** Implemented JWT-based authentication and data encryption, ensuring 100% secure card information storage with industry-standard security practices.
- Validation System:** Built an automated card type detection and validation system using npm validators, achieving 99% accuracy in card information processing.
- User Interface Design:** Created responsive UI using Context API and modern CSS, ensuring optimal user experience across desktop, tablet, and mobile devices.

CODING PROFILES & ACHIEVEMENTS

LeetCode: [Solved 500+ problems \(212 Easy, 257 Medium, 33 Hard\)](#)

Max Rating: 1782 (Top 8.11%)

GeeksForGeeks: [Solved 248 problems](#)

Coding Score: 861

EDUCATION

Lakshmi Narain College of Technology & Science, Bhopal

July 2020 - July 2024

Bachelor of Technology in Computer Science & Engineering - AIML

CGPA: 9.02/10

- Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Machine Learning, Software Engineering, Computer Networks, Operating Systems
